

DIBYANT BHATTA

Software Engineer | Full-Stack Developer

Lalitpur, Nepal | bhattadibyant@gmail.com | +977-9765515500

Portfolio: Dibyant Bhatta | GitHub: github.com/Dibyant4 | LinkedIn: linkedin.com/in/dibyant-bhatta

CAREER OBJECTIVE

Full-stack developer with experience building scalable web applications and IoT-based solutions using Java, JavaScript, React, Node.js, SQL, and modern development tools. Passionate about solving real-world problems through clean architecture, user-focused design, and continuous learning while contributing to impactful software products.

EDUCATIONAL BACKGROUND

BSc (Hons) Computing	2024-2026 (Expected)
Islington College, London Metropolitan University	
Kamalpokhari, Kathmandu	
SLC (Science)	2022-2024
VS Niketan College, NEB	
Tinkune, Kathmandu	
SEE	2022
N. Bal Batika Vidhya Mandir, NEB	
Bauniyan. Kailali	

SKILLS

Technical Skills

Programming Language: Java, Python, JavaScript, HTML, CSS, SQL

Framework / Platform: Java Servlet, JavaServer Pages (JSP), ESP32 / Arduino, React.js, Node.js, Express.js, Prisma

Tools & Software: Eclipse IDE, Visual Studio Code, Git & GitHub, MySQL, Figma, BlueJ, Microsoft Office, Power BI, Overleaf

Design & Creative: UI/UX Design, Sketching & Wireframing, Interactive Prototyping, Graphic Design

Soft Skills

Leadership, Real-World Problem Solving, Analytical Thinking, Creative Thinking, Team Collaboration, Project Planning & Coordination, Adaptability, Attention to Detail, Time Management

PROJECTS

Finora Dual-Domain E-Commerce Platform (Java • JSP • Servlets • MySQL • HTML • CSS • JavaScript)	GitHub
Designed a normalized MySQL database and implemented secure authentication, session management, and an administrative dashboard using Java Servlets and the MVC architecture. The project demonstrates full-stack development, database design, and secure web application development.	
Personal Portfolio Website (HTML • CSS • JavaScript • Figma)	GitHub
Designed and developed a responsive portfolio website to showcase my projects, technical skills, certifications, and creative work. The website combines modern UI/UX principles with interactive design and responsive layouts to create consistent user experience while strengthening my personal brand as a developer.	
6-Legged Hexapod Surveillance Robot (ESP32 • ESP32-CAM • Arduino • IoT • Servo Control)	GitHub
Designed and developed an IoT-based six-legged surveillance robot capable of remote navigation, live video streaming, and 180° camera rotations. The robot integrates 15 servo motors through a PCA9685 controller to achieve coordinated locomotion while using ultrasonic sensing for environmental awareness.	
Task Management Application (Java • Java Swing)	GitHub
Created a desktop task management application that enables users to organize daily tasks through creation, editing, deletion, and completion tracking. The project applies object-oriented programming, modular design, and persistent file handling to deliver a clean, user-friendly solution for everyday productivity.	

TRAINING & CERTIFICATIONS

- [AWS Academy Graduate - Cloud Foundations](#)
- [AWS Academy Graduate - Data Engineering](#)
- [AWS Academy Graduate - Machine Learning for Natural Language Processing](#)
- [AWS Academy Graduate - Machine Learning Foundations](#)

AWARDS & ACHIEVEMENTS

FYP & IoT Showcase Project Shortlist	Islington College
Shortlisted for the Islington College FYP & IoT Showcase for developing an IoT-based six-legged surveillance robot, recognizing the project's technical design and innovation.
